Declaration of accuracy

In making this declaration, I am aware that sections 490 and 491 of the *Environment Protection and Biodiversity Conservation Act 1999* (Cwth) (EPBC Act) make it an offence in certain circumstances to knowingly provide false or misleading information or documents. The offence is punishable on conviction by imprisonment or a fine, or both. I declare that all the information and documentation supporting this compliance report is true and correct in every particular. I am authorised to bind the approval holder to this declaration and that I have no knowledge of that authorisation being revoked at the time of making this declaration.

Signed	
Full name (please print):	Brendan McAvoy
Position (please print):	Head of Construction

Declaration of accuracy	5
1. Project Description	7
2. Description of activities	7
3. Compliance Report	8
4. New Environmental Risks	25

1. Project Description

The Bango Wind Farm is located in the Hilltops and Yass Valley Local Government Areas, approximately 8km south west of Rye Park and 20km north of Yass. The nearest township is Boorowa, which is located approximately 12 km to the north along Lachlan Valley Way. The site is characterised by a mix of native woodland and open-forest, native pasture, exotic pasture and cleared land.

The project was granted State Significant Development Approval (SSD6686) by the Independent Planning Commission on 1 May 2018.

On 25 May 2018, a third-party appeal was made to the Court by several landowners challenging the granting of the IPC consent. On 6 December 2018, an agreement was reached during a conciliation conference ordered pursuant to s 34 of the *Land and Environment Court Act 1979* (LEC Act).

A Modification (SSD 6686 MOD 1) was granted on 7 June 2019 to approve the subdivision of land (to create one freehold lot for the construction of the collector substation) and amend the description of the Land to include two additional parcels of land to accommodate the oversail of three wind turbine blades onto these two lots.

The Minister for Environment and Energy granted approval on 9 August 2018 with conditions covered by EPBC 2013/6810. A variation to the Approval was granted on 4 April 2019. The Approval holder is Bango Wind Farm Pty Ltd (ABN 38 143 401 067).

The project involves construction, operation and decommissioning of the wind farm. Construction on the site commenced on 14 August 2019 (commencement of the action).

The reporting period is from 14th August 2019 to 13th August 2020.

2. Description of activities

Activities undertaken during the reporting period (14th August 2019 – 13th August 2020) are summarised below:

- Upgrade of the entrance to the wind farm site at the intersection of Lachlan Valley Way
- Installation of permanent and temporary meteorological monitoring masts
- Clearing and grubbing
- Commence construction of site access tracks and associated drainage works
- Establish construction compound area including fencing, environmental controls, site offices, amenities, and parking area
- Construction of concrete batch plant #1 – Kangiara (western) cluster
- Commence construction of batch plant #2 – Mt Buffalo (eastern) cluster
- Construction of a 132kV substation and switchyards with associated structures and buildings
- Commence turbine site preparation for wind turbine sites
- Blasting of non-rippable rock at some turbine locations
- Formation of concrete foundations for wind turbines – Kangiara (western) cluster
- Commence installation of 33kV overhead transmission lines and communication cables between the wind turbine clusters and the main collector substation
- Commence installation of 33kV underground cables and communication cables within the Kangiara (western) wind turbine cluster.

3. Compliance Report

Table 1. EPBC compliance table

Number	Condition	Stage	Complies	Status / Comment
1	The approval holder must:			
1a	Implement conditions 8, 9, 11 and 12 of Schedule 2 and conditions 16, 17, 18, 19 (a) and (c), 20 and 21 of Schedule 3 of the NSW development consent as they relate to impacts to protected matters .	All	Compliant	Management of protected matters are contained within the approved Biodiversity Management Plan and Environmental Management Strategy.
1b	Notify the Department in writing of any proposed change to the conditions of the NSW development consent for which Condition 1a applies no later than 5 business days after proposing a change or becoming aware of the NSW Government proposing a change.	All	Compliant	<p>On 28/11/2018, changes were proposed to the conditions of the NSW Development consent. On 25/05/2018, a third-party appeal was made to the Land and Environment Court, challenging the granting of the Independent Planning Commission development consent dated 01/05/2018.</p> <p>As a result of that appeal and associated section 34 conciliation conference proceedings, changes to conditions of the NSW development consent were proposed on 28/11/2018. The proposed changes included amending the definition of 'EIS' and amending the wording of Condition 9 of Schedule 2 in relation to micro-siting.</p> <p>Subsequently, a written notification was provided to the Department on 02/12/2018 (2 business days after the changes were proposed. The written notification outlined the proposed changes against each relevant condition.</p>

Number	Condition	Stage	Complies	Status / Comment
1c	Notify the Department in writing of any change to the NSW development consent for which EPBC sub-condition 1a applies within 5 business days of a change being finalised.	All	Compliant	On 6/12/2018, an agreement was reached during the s34 conciliation conference. The updated Conditions of Consent then became available on 12/12/2018. Two business days later on 14/12/2018, CWP issued an email to the Department advising of the updated Conditions of Consent.
2	The approval holder must not clear more than:			
2a	39.54 ha of Golden Sun Moth habitat (as marked in pink and purple on the map at Annexure B)	All	Compliant	Clearing records, provided by the construction contractor, show between August 2019 - 2020, 21.68ha of Golden Sun Moth habitat was impacted on during the reporting period.
2b	9.54 ha of Superb Parrot habitat (as marked in brown on the map at Annexure C)	All	Compliant	Clearing records, provided by the construction contractor, show between August 2019 - 2020, 3.20 ha of Superb Parrot habitat was impacted on during the reporting period.
2c	0.32 ha of Box Gum Woodland (as marked in red on the map at Annexure D)	All	Compliant	Clearing records, provided by the construction contractor, show between August 2019 - 2020, 0.30 ha of Box Gum Woodland (Cwth listed) was impacted on during the reporting period.
2d	8 primary hollow bearing trees (as marked on the map at Annexure C)	All	Compliant	2 primary hollow bearing trees were cleared during the reporting period.

Number	Condition	Stage	Complies	Status / Comment
3	The approval holder must protect known and potential Superb Parrot nest trees by:			
3a	Only conducting blasting within 50 m and clearing within 30 m of known and potential Superb Parrot nest trees between 1 February and 31 August (outside the breeding season).	Construction	Compliant	Blasting was not conducted within 50m of any known and potential Superb Parrot nest trees during the Superb Parrot breeding season (1 September – 31 January). Clearing was not conducted within 30m of any known and potential Superb Parrot nest trees during the Superb Parrot breeding season (1 September – 31 January).
3b	Locating wind turbines at least 50 m away from known and potential Superb Parrot nest trees .	Construction	Compliant	All wind turbines have been located at least 50m away from known and potential Superb parrot nest trees . Distances between turbines and known and potential Superb Parrot nest trees was verified during detailed design to ensure that the turbines would not be located within 50m of a known or potential Superb Parrot nest tree (except for the known or potential Superb Parrot nest trees that have been, or will be cleared, in accordance with condition 2d of the approval). The closest wind turbine is located 85m horizontal distance to a known or potential Superb Parrot nest tree .
3c	locating onsite infrastructure, with the exception of wind turbines, at least 30m away from known and potential Superb Parrot nest trees . <i>Note: for the purposes of this section, crane hardstands and turbine foundations are not considered turbines.</i>	Construction	Compliant	Onsite infrastructure is located at least 30m away from known and potential Superb Parrot nest trees .

Number	Condition	Stage	Complies	Status / Comment
4	The approval holder must submit plans for site layout required by condition 11 and 12 of Schedule 2 of the NSW development consent to the Minister at the same time as it is submitted to the Secretary of the Department of Planning and Environment for approval.	Construction	Compliant	<p>The site layout plan was submitted to the Secretary of the NSW Department of Planning, Industry and Environment (DPIE) (per Condition 11 of the NSW Development consent) on 17/05/2019. The same Site layout plan was also submitted to the Minister on 10/06/2019. That site layout plan was subsequently approved by DPIE on 15/07/2019.</p> <p>The Site layout plan was revised and was submitted to the Secretary of the NSW Department of Planning, Industry and Environment (DPIE), per Condition 12 of the NSW development consent, on 06/05/2020. This plan was also submitted to the Minister on 07/05/2020. During consultation with the DPIE, a further revision and update was made to the Site layout plan on 16/07/2020. Approval from the Secretary was subsequently received on 25/08/2020 and this plan was submitted to the Minister on 27/08/2020.</p>

Number	Condition	Stage	Complies	Status / Comment
5	<p>The approval holder must submit a Biodiversity Management Plan (BMP) to the Minister for approval. Commencement of the action must not occur unless the Minister has approved the BMP. The approval holder must implement the approved BMP.</p> <p>The BMP must include:</p>	Pre-construction	Compliant	<p>A draft BMP was first submitted to the Minister on 07/05/2019.</p> <p>Following rounds of reviews and updates, the Minister approved the BMP on 17/06/2019, prior to the commencement of the action.</p> <p>The BMP has been implemented by the approval holder and its contractors.</p> <p>Implementation by the Contractors has been through the development and implementation of specific designs, plans and procedures in accordance with the requirements of the BMP, including but not limited to:</p> <ul style="list-style-type: none"> • Detailed design with consideration to all conditions of the EPBC Approval 2013/6810. • Construction Environmental Management Plan • Biodiversity Management Sub-Plan, containing: <ul style="list-style-type: none"> ○ Pre-clearance survey procedures ○ Vegetation clearing procedures ○ Vegetation clearing tracking register ○ Fauna management protocols ○ Habitat salvage requirements • Biosecurity Management Sub-plan • Blasting Management Sub-plan <p>BWF have undertaken inspections and monitoring to verify the implementation of the BMP by the EPC Contractors. The project is compliant with this condition.</p>

Number	Condition	Stage	Complies	Status / Comment
5a	Spatial maps, description and quantification of the final disturbance footprint in relation to proposed impacts to protected matters , including the number, type of hollow bearing trees and size of hollows to be removed.	Pre-construction	Compliant	The approved BMP addresses this requirement in Section 2 and Appendix A.
5b	Management measures to ensure the protection and maintenance of habitat for protected matters during the construction and operational phases of the approved action.	Pre-construction	Compliant	The approved BMP addresses this requirement in Section 4.
6	The approval holder must submit a Bird and Bat Adaptive Management Plan (BBAMP) to the Minister for approval. Commissioning must not occur unless the Minister has approved the BBAMP. The approval holder must implement the approved BBAMP. The BBAMP must include, but is not limited to:	Construction	Not applicable	Commissioning had not commenced as at the end of the reporting period (13/08/2020).
6a	An on-going monitoring program, which must include a description of the methodology and frequency of monitoring.	Construction	Not applicable	The BBAMP was still in preparation as at the end of the reporting period (13/08/2020).
6b	Trigger levels to shut down any turbines when there is a high risk of collision based on monitoring data and the results of research conducted as part of EPBC condition 13 on Superb Parrot habitat use and breeding ecology.	Construction	Not applicable	The BBAMP was still in preparation as at the end of the reporting period (13/08/2020).
6	The results of the monitoring program from each year must be submitted as part of the annual report required under EPBC condition 17.	Construction	Not applicable	The monitoring program had not commenced in the current reporting period.

Number	Condition	Stage	Complies	Status / Comment
7	If the Minister considers, based on monitoring taken under EPBC condition 6, compliance reporting required by EPBC condition 17 and the risk assessment and mitigation measures included in the BBAMP, the operation of the action is having a detrimental impact on protected matters , then the Minister may notify the approval holder in writing that specified wind turbines must not be operated for a specified period of time. If the Minister makes a written notice under this condition, the approval holder must implement that written notice.	Operation	Not applicable	Noted.
8	Prior to the commencement of the action , the approval holder must submit to the Minister , the calculation of biodiversity impacts consistent with Condition 18 of Schedule 3 of the NSW development consent as it relates to protected matters .	Pre-construction	Compliant	BWF, as the approval holder , commenced the action on 14/08/2019. Calculations of biodiversity impacts were submitted to the Minister on 16/06/2019.
9	Within two years of the commencement of the action , the approval holder must submit evidence of credit retirement consistent with condition 19 (a) or (c) of Schedule 3 of the NSW development consent to the Minister .	Construction	Not applicable	BWF, as the approval holder , commenced the action on 14/08/2019. Accordingly, evidence of credit retirement will be provided to the Minister by 14/08/2021.
10	In the case that the approval holder is establishing BioBanking site(s) , they must ensure that the BioBanking Agreement(s) for the BioBanking site(s) include measures for the long-term management of protected matters including but not limited to:	All	Not applicable	The BioBanking Scheme has been replaced by the Biodiversity Offsets Scheme (BOS) under the <i>Biodiversity Conservation Act 2016</i> (BC Act) which commenced on 25 August 2017. A Biodiversity Stewardship Agreement will be established, and a copy of the Agreement will be provided to the Minister as required under Condition 11.

Number	Condition	Stage	Complies	Status / Comment
10a	Specific reference to Superb Parrot, Golden Sun Moth and hollow bearing trees providing habitat to Superb Parrot .	All	Not applicable	To be addressed in a Biodiversity Stewardship Agreement – still in progress as at the end of the reporting period (13/08/2020).
10b	A textual description of the offset sites, including offset attributes, shapefiles , and a map clearly defining the location and boundaries of the proposed offset sites.	All	Not applicable	To be addressed in a Biodiversity Stewardship Agreement – still in progress as at the end of the reporting period (13/08/2020).
10c	Site survey and baseline data and documentation of key biodiversity threats and opportunities at each site.	All	Not applicable	To be addressed in a Biodiversity Stewardship Agreement – still in progress as at the end of the reporting period (13/08/2020).
10d	A detailed description of management actions and responsibilities designed to protect and improve the ecological quality of habitat of Superb Parrot and Golden Sun Moth on the offset sites.	All	Not applicable	To be addressed in a Biodiversity Stewardship Agreement – still in progress as at the end of the reporting period (13/08/2020).
10e	Key milestones, performance indicators and timeframes for each management action.	All	Not applicable	To be addressed in a Biodiversity Stewardship Agreement – still in progress as at the end of the reporting period (13/08/2020).
10f	A monitoring program to determine the effectiveness of the management actions.	All	Not applicable	To be addressed in a Biodiversity Stewardship Agreement – still in progress as at the end of the reporting period (13/08/2020).
10g	Corrective actions and contingency measures to be implemented where monitoring of the offset site shows that management actions are not effectively achieving key milestones or prescribed performance indicators are not being met or are unlikely to be met.	All	Not applicable	To be addressed in a Biodiversity Stewardship Agreement – still in progress as at the end of the reporting period (13/08/2020).
10	Where appropriate offsets credits are acquired from the market, it is accepted that the credit provider has made suitable and appropriate measures to meet the above intent.	All	Not applicable	Offset credits were not acquired from the market during the reporting period.

Number	Condition	Stage	Complies	Status / Comment
11	In the case that the approval holder is establishing BioBanking site(s) , they must submit a copy of the BioBanking Agreement(s) to the Minister within two years of the commencement of the action .	Construction	Not applicable	The date of commencement of the action was 14/08/2019. Accordingly, the Biodiversity Stewardship agreement will be provided to the Minister by 14/08/2021.
12	For each primary hollow bearing tree (as marked in the map at Annexure C) removed within 50 m of each turbine (as confirmed through quantification of hollow bearing trees impacts through EPBC condition 5), the approval holder must legally protect and secure 10 hollow bearing trees from the same vegetation formation within the South-west Slopes of NSW Important Bird Area .	Construction	Not applicable	This requirement is currently being addressed by BWF as the approval holder .
12a	Within two years of the commencement of the action , the approval holder must submit evidence to the Minister's satisfaction of the final number of hollow bearing trees to be legally protected and secured.	Construction	Not applicable	The date of commencement of the action was 14/08/2019. Accordingly, evidence of the final number of hollow bearing trees to be legally protected and secured will be submitted to the Minister by 14/08/2021.
13	To compensate for potential cumulative impacts on Superb Parrot , the approval holder must prepare and implement a Superb Parrot Conservation Research Plan (SPCRP).	Pre-construction	Compliant	The Superb Parrot Conservation Research Plan (SPCRP) has been prepared and is available at the following web location: https://bangowindfarm.com.au/wp-content/uploads/2020/09/200729_BWF_SPCRP_v2.pdf The Superb Parrot Conservation Research Team have implemented the SPCRP during the 2019 – 2020 period.

Number	Condition	Stage	Complies	Status / Comment
13	The SPCRP must be submitted to the Minister for approval prior to commencement of the action . The action must not commence unless the Minister has approved the SPCRP. The approved SPCRP must be implemented.	Pre-construction	Compliant	<p>The SPCRP v1 (dated 3 June 2019) was approved by the Minister on 2 July 2019.</p> <p>The SPCRP was revised on 29/07/2020, and a copy of the revised SPCRP (v2) was submitted to the Department on 31/07/2020.</p> <p>Refer to the SPCRP (v2) available at the following web location: https://bangowindfarm.com.au/wp-content/uploads/2020/09/200729_BWF_SPCRP_v2.pdf</p> <p>The National Superb Parrot Recovery Team have implemented the SPCRP during the 2019 – 2020 period.</p>
13	The SPCRP must contribute to better understanding Superb Parrot habitat use and breeding ecology within the South-west Slopes of NSW Important Bird Area , with a focus on identification of key breeding sites, better understanding local movement patterns during the breeding season and landscape scale movements between the key breeding areas and the winter foraging grounds.	Pre-construction	Compliant	<p>The SPCRP addresses this requirement.</p> <p>Refer to the SPCRP (v2) available at the following web location: https://bangowindfarm.com.au/wp-content/uploads/2020/09/200729_BWF_SPCRP_v2.pdf</p>
13	The SPCRP must contain, but is not limited to, the following:			
13a	Conservation research activities consistent with the National Recovery Plan for the Superb Parrot <i>Polytelis swainsonii</i> (2011) and reflect input and advice from the National Superb Parrot Recovery Team .	Pre-construction	Compliant	<p>The SPCRP is consistent with the National Recovery Plan and has been prepared with input from the National Superb Parrot Recovery Team.</p> <p>Refer to the SPCRP (v2) available at the following web location: https://bangowindfarm.com.au/wp-content/uploads/2020/09/200729_BWF_SPCRP_v2.pdf</p>

Number	Condition	Stage	Complies	Status / Comment
13b	Specific project objectives, indicative timetable for activities, nomination of persons or organisations responsible for carrying out the activities, and outline commitments to the provision and timing of funding.	Pre-construction	Compliant	The SPCRP addresses this requirement. Refer to the SPCRP (v2) available at the following web location: https://bangowindfarm.com.au/wp-content/uploads/2020/09/200729_BWF_SPCRP_v2.pdf
14	The approval holder must provide at least \$100,000 each year for five years to fund the conservation research activities outlined in the SPCRP. The first year's contribution must be made within 20 business days from the commencement of the action .	Construction	Compliant	The date of commencement of the action was 14/08/2019. The payment for the first year was made on 03/09/2019 (14 business days after commencement of the action).
15	Within 14 business days after the commencement of the action , the approval holder must advise the Department in writing of the actual date of commencement .	Pre-construction	Compliant	On 16/08/2019, BWF, as the person taking the action , notified the Department in writing that the commencement of the action occurred on 14/08/2019. Notification of the commencement of the action was provided to the Department by email on 16/08/2019, two business days after the date of commencement .
16	The approval holder must maintain accurate records substantiating all activities associated with or relevant to these conditions of approval, including measures taken to implement the management plans, and make them available upon request to the Department . Such records may be subject to audit by the Department or an independent auditor in accordance with section 458 of the EPBC Act , or used to verify compliance with the conditions of approval. Summaries of audits will be published on the Department's website. The results of audits may also be publicised through the general media.	All	Compliant	BWF, as the approval holder , maintains accurate records substantiating all activities associated with or relevant to the conditions of approval, including measures taken to implement the management plans.

Number	Condition	Stage	Complies	Status / Comment
17	<p>Within three months of every 12 month anniversary of the commencement of the action, the approval holder must publish a report on its website addressing compliance with each of the conditions of this approval including implementation of the management plans. Documentary evidence providing proof of the date of publication must be provided to the Department at the same time as the compliance report is published. The report must remain published on the website for the duration of the approval. Reports must continue to be published until such time as advised by the Minister in writing.</p> <p><i>Note: Compliance reports may be published on the Department's website. The first compliance report may report a period less than 12 months so that it and subsequent compliance reports align with the similar requirement under state approval.</i></p>	All	Compliant	<p>This compliance report details the activities undertaken by BWF as the person taking the action, pursuant to the reporting period 14/08/2019 to 13/08/2020.</p> <p>Accordingly, this annual compliance report will be published on the project website by 14/11/2020, and evidence of the date of publication will be provided to the Department at the same time.</p>
18	<p>Potential or actual contraventions of the conditions of the approval must be reported to the Department in writing within two business days of the approval holder becoming aware of the actual or potential contravention.</p>	All	Not applicable	<p>There were no potential or actual contraventions of the approval during the reporting period 14/08/2019 – 13/08/2020.</p>

Number	Condition	Stage	Complies	Status / Comment
19	Upon the direction of the Minister , the approval holder must ensure that an independent audit of compliance with the conditions of approval is conducted and a report submitted to the Minister . The independent auditor must be approved by the Minister prior to the commencement of the audit. Audit criteria must be agreed to by the Minister and the audit report must address the criteria to the satisfaction of the Minister .	All	Not applicable	The Minister did not direct an independent audit of compliance during the reporting period.
20	If, at any time after five years from the date of this approval, the approval holder has not commenced the action, then the approval holder must not commence the action without the written agreement of the Minister .	All	Not applicable	The action commenced on 14/08/2019.
21	Revision of action management plans The approval holder may, at any time, apply to the Minister for a variation to an action management plan approved by the Minister under conditions 5 and 6, or as subsequently revised in accordance with these conditions, by submitting an application in accordance with the requirements of section 143A of the EPBC Act . If the Minister approves a revised action management plan (RAMP) then, from the date specified, the approval holder must implement the RAMP in place of the previous action management plan.	All	Compliant	The BMP was revised on 19/06/2020 (v2). The BMP (v2) was submitted to the Minister on 17/07/2020 for approval. Approval was received on 09/08/2020. The BMP (v2) was subsequently implemented.

Number	Condition	Stage	Complies	Status / Comment
21A	The approval holder may choose to revise an action management plan approved by the Minister under conditions 5 and 6, or as subsequently revised in accordance with these conditions, without submitting it for approval under section 143A of the EPBC Act , if the taking of the action in accordance with the RAMP would not be likely to have a new or increased impact .	All	Not applicable	The condition was not triggered during the reporting period.

Number	Condition	Stage	Complies	Status / Comment
21B	<p>If the approval holder makes the choice under condition 21 A to revise an action management plan without submitting it for approval, the approval holder must:</p> <p>a. notify the Department in writing that the approved action management plan has been revised and provide the Department with:</p> <ul style="list-style-type: none"> i. an electronic copy of the RAMP; ii. an electronic copy of the RAMP marked up with track changes to show the differences between the approved action management plan and the RAMP; iii. an explanation of the differences between the approved action management plan and the RAMP; iv. the reasons the approval holder considers that taking the action in accordance with the RAMP would not be likely to have a new or increased impact; and v. written notice of the date on which the approval holder will implement the RAMP (RAMP implementation date), being at least 20 business days after the date of providing notice of the revision of the action management plan, or a date agreed to in writing with the Department. <p>b. subject to condition 21 D, implement the RAMP from the RAMP implementation date.</p>	All	Not applicable	This condition was not triggered.

Number	Condition	Stage	Complies	Status / Comment
21C	The approval holder may revoke its choice to implement a RAMP under condition 21 A at any time by giving written notice to the Department . If the approval holder revokes the choice under condition 21A, the approval holder must implement the action management plan in force immediately prior to that RAMP.	All	Not applicable	This condition was not triggered.
21D	If the Minister gives a notice to the approval holder that the Minister is satisfied that the taking of the action in accordance with the RAMP would be likely to have a new or increased impact , then: a. condition 21 A does not apply, or ceases to apply, in relation to the RAMP; and b. the approval holder must implement the action management plan specified by the Minister in the notice.	All	Not applicable	This condition was not triggered.
21E	At the time of giving the notice under condition 21 D, the Minister may also notify that, for a specified period of time, condition 21 A does not apply for one or more specified action management plans.	All	Not applicable	This condition was not triggered.
21E	<i>Note: Conditions 21A, 21B, 21C and 21D are not intended to limit the operation of Section 143A of the EPBC Act which allows the approval holder to submit a revised action management plan, at any time, to the Minister for approval.</i>	All	Note	This condition was not triggered.

Number	Condition	Stage	Complies	Status / Comment
22	Unless otherwise agreed to in writing by the Minister , the approval holder must publish all management and research plans referred to in these conditions of approval on its website. Each plan must be published on the website within one month of being approved and remain published on the website for the duration of the approval.	All	Compliant	<p>Management and research plans referred to in the conditions are published on the project website, including:</p> <ul style="list-style-type: none"> - Site layout plan (Condition 4) - Biodiversity Management Plan (Condition 5) - Superb Parrot Conservation Management Plan (Condition 13). <p>Note: the Bird and Bat Adaptive Management Plan (BBAMP) (Condition 6) has not been finalised at the end of the reporting period (13/08/2020).</p>

4. New Environmental Risks

No new environmental risks were identified during the reporting period.
