Whilst we all look forward to experiencing the magic of Christmas Lights after a difficult year, it is essential that current COVID-Safe restrictions and recommendations are followed at all times.

Please see attached COVID-19 information sheet attached.

Be COVID SAFE

Bango Wind Farm and GE encourage people to stay in cars when looking at Christmas lights.

NSW Health and Service NSW have both indicated that they have no concerns regarding Christmas Lights Competitions and the displaying of Christmas lights.

Installation of Christmas lights on private property is up to individual property owners whether they choose to install Christmas lights or not.

If you have any concerns regarding crowds gathering near your property, we encourage you to visit the [NSW Government website](#) or contact the Coronavirus Hotline on 1800 020 080

For those of you looking to go enjoy the Christmas lights this year, please remember the NSW Government's social distancing restrictions still remain in place. This means we all need to keep 1.5 metres away from other people and avoid close contact with people we do not live with.

We all have a role to play in keeping ourselves and our community safe, so please remain in your cars and enjoy the Christmas lights in a COVID safe way.

Important Note: The below information for Visitors and Display Owners is provided as a general recommendation and in no way substitutes any current official directive from any authorities. It is your responsibility to keep abreast of current COVID-19 rules and ensure they are followed at all times.

If You Are Visiting a Christmas Display:

We are all really excited to visit Christmas Lights this year so it's important to make sure your Christmas Light viewing is 'COVID-safe'.

Here are some things to remember about when you're out at lights:

- Ensure you have checked and are following the latest COVID-19 restrictions from your Local Authorities.
- DO NOT visit a display if you are feeling un-well
- Please follow any COVID-Safe requests from the Homeowner (eg; Masks required, Hand Sanitizer, No Touching, etc)
- COVID-Safe requests may be listed on signs out the front of the Display or specified on the location listing page on this website.
- Social distance - stay at least 1.5 metres away from anyone else.
- Stay in your car when appropriate

If You Are A Display Owner:

We know you are looking forward to putting up your lights this year and understand you may be apprehensive about people gathering at your Display.

Here are some things you **may** want to consider when running your lights:

- Make yourself aware of current requirements & restrictions from your local authorities (Councils and Government) and ensure you are set up to comply with them.
- When submitting or confirming your Display on this site, please consider any 'COVID-Safe' measures you'd like your Visitors to take (these can be in addition to those required by your local authorities).
- COVID-Safe Measures available for selection:
 - Masks required
 - Hand Sanitizer on Entry
 - Do-Not-Touch Items
 - View from Footpath Only
 - View from Car Only.

You can add in any additional information to your listing's Comments.

- To better manage people movement and density, if you have a Walk-In Display, consider setting it up with a single 'Entry' and 'Exit' point.
- Consider roping off open areas where crowds typically gather.
- Paint, Chalk or Stick 'yellow crosses' 1.5m apart on the ground in front of key features or attractions, to encourage social distancing.
